PROFILE

Driven by a passion for TECH , I specialize in building cross-platform mobile apps that are both functional and user-friendly. I enjoy solving complex problems, especially in backend and full-stack development, and thrive in collaborative teams. While Flutter is my core focus, I'm always exploring new technologies to stay ahead and deliver smart, scalable solutions.

EDUCATION

2025
Nigeria

Computer Science
University of Nigeria Nsukka

2016
Nigeria

High School Diploma
Saint Augustine Seminary College Ezzamgbo

PROFESSIONAL EXPERIENCE

2025
Remote

Campipal
App developer

- Design and implement Android-specific screens using Flutter.
- Build responsive layouts that adapt well to different Android screen sizes.
- Ensure smooth navigation between pages (Navigator or GoRouter).
- Integrate native Android features (e.g., file handling, background tasks).
- Test compatibility with Android versions and devices.
- Handle authentication .

2025
Contract

Blail
App developer

- Helped define the user journey for hands-free email operations, from login to inbox navigation and message dictation.
- Collaborated on the implementation of speech-to-text features using Third Party Packages for accuracy and efficiency.
- Ensured accessibility and inclusivity by refining the interface and voice prompts for users

2024 – 2025
Lagos, Nigeria

Activeedge Technologies
Technology Intern

- Developing scalable and secure backend systems
- Learning and working with Node.js, databases, and authentication services
- Gaining hands-on experience in API development and backend logic
- Managing and optimizing database performance
- Enhancing server-side security and efficiency
- Continuously improving skills and staying updated with backend technologies

2023
Contract

Muslim Matrimony
App Developer

- Collaborated with developers to implement features like halal chat (moderated messaging), privacy controls, and verification steps
- Aligned with the team on tone and language choices across the app

GOALS

My Goals

As a Flutter developer, I'm focused on building clean, reliable apps that work seamlessly across platforms. I want to keep growing my skills especially in backend logic and app architecture, while contributing to projects that make a difference.

Looking ahead, I'm excited about leading teams, collaborating on meaningful work, and staying sharp as the tech world keeps evolving

SKILLS

Flutter framework	Api Integration
Dart & Package Integration	Node Js & Express
MySql	MongoDB
Backend Development	Database Management
Typescript	FireBase
Core Java	CI/CD
